

Central Conductor and a shield is present in _____. *

- ☐ Fiber Optic
- ☒ Coaxial
- ☐ All of the above
- ☐ Twisted Pair

_____ wave does not belong to unguided media. *

- ☐ radio wave
- ☐ microwave
- ☒ laser
- ☐ infra red wave

Highest reliability is present in _____ topology. *

- ☒ Mesh
- ☐ Ring
- ☐ Star
- ☐ Bus

_____ is sent along with the data to the source computer. *

- ☐ element
- ☐ header
- ☒ token
- ☐ module

Identify the correct frequency range of coaxial cable. *

- ☒ 100KHz to 500MHz
- ☐ 100MHz to 500MHz

☐ 1000KHz to 500MHz

Application of guided media is _____. *

- ☒ Local telephone system
- ☐ Radio broadcasting
- ☐ Cellular telephone system
- ☐ Satellite Communication

Optical fiber wire has _____ data transfer rate. *

- ☐ 50 kbps
- ☒ 1000 Mbps
- ☐ None of the these
- ☐ 1000 kbps

_____ is used to allocate

_____ is used to allocate resources on demand. *

- ☐ frequency switching
- ☐ line switching
- ☒ packet switching
- ☐ circuit switching

_____ is a modular telephone connector is used to connect a four pair twisted pair. *

- ☐ RJ45
- ☐ RJ11
- ☒ RJ21
- ☐ RJ35

The is used at the end of the cable to present the reflection of the signal. *

- ☒ BNC terminator

To branch out for a cable for connection of computer to other devices----- connector is used.

- ☐ BNC connector
- ☐ BNC-L connector
- ☒ BNC-T connector
- ☐ BNC terminator

Clear selection

Application of BNC connector is _____. *

- ☒ Television
- ☐ Tablet
- ☐ Mobile
- ☐ Laptop

•The modulation technique that has become standard for ADSL is called the _____.

*

☐ BNC terminator

Clear selection

Application of BNC connector is _____. *

☒ Television

☐ Tablet

☐ Mobile

☐ Laptop

•The modulation technique that has become standard for ADSL is called the _____.

☐ QAM

☐ CDMA

☐ FDM

☒ DMT

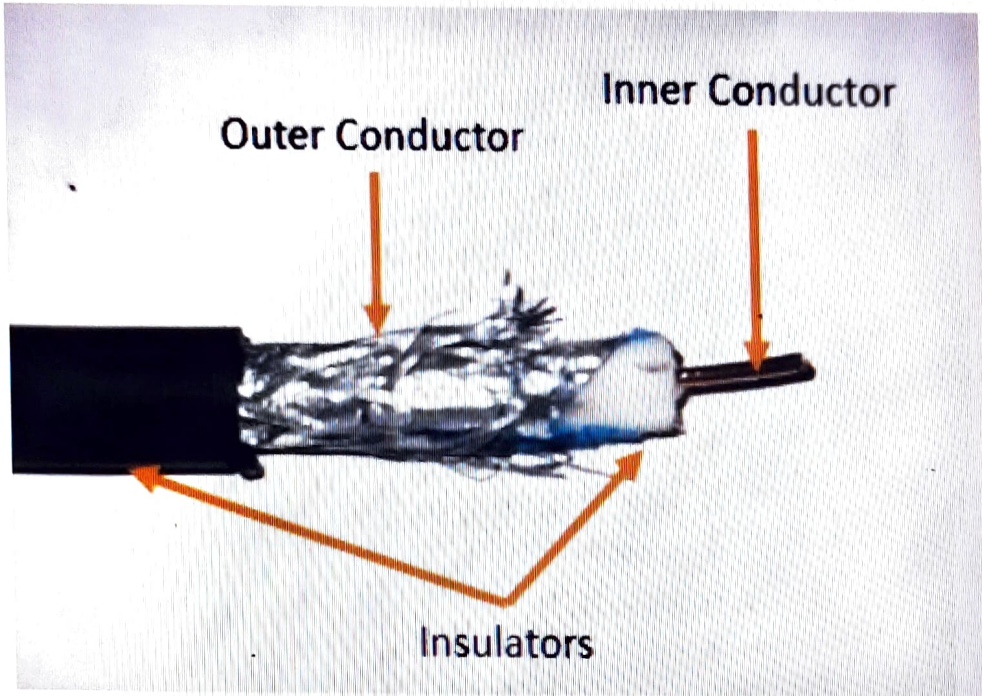

Identify the type of connector *

- ☐ BNC connector
- ☒ BNC-T connector
- ☐ BNC-L connector
- ☐ BNC terminator

Predict the type of cable *

Predict the type of cable *

- ☐ UTP
- ☒ Co-axial
- ☐ Optical Fiber
- ☐ STP
